

Dear Client,

Thank you for considering our services for your ecommerce website. Based on your requirements, I recommend two options: **Shopify** (hosted, simple, and scalable) or **WooCommerce (WordPress)** (flexible and customizable). Below, I will detail exactly what I'll use to build your site, including specific themes, plugins/apps, prices, hosting, and service charges. All prices are in USD and based on current 2025 rates.

Option 1: Shopify Store

- **Shopify Plan:** Advanced Shopify Plan is the top-tier plan (before Shopify Plus) and it's priced at **\$399/month**, but Shopify often gives a **25% discount if you pay annually**, which brings it to **\$3,588/year**.

The image shows the Shopify pricing page with four plans: Basic, Grow, Advanced, and Plus. At the top, there are two tabs: 'Pay monthly' and 'Pay yearly (save 25%)*'. The 'Pay yearly' tab is selected. Each plan has a green header with the price '\$1/month for first 3 months' (except for Plus, which is 'Available on a 1- or 3-year term'). The plans are as follows:

Plan	Target Audience	Starting Price (Monthly)	Card Rates (Starting at)	Standout Features	Buttons
Basic	For solo entrepreneurs	\$29	2.9% + 30¢ USD online 2.6% + 10¢ USD in person 2% 3rd-party payment providers	Up to 77% shipping discount 10 inventory locations 24/7 chat support In-person selling by phone or POS device	Try for free
